Hi Roger, we did discuss the prospective new prison at the PC on Monday and I have to report that views were mixed. There was no councillor expressing unqualified support for the proposal but a couple did express views that the creation of a new state of the art prison is an important development in the field of prison upgrading. On the whole therefore I do not believe that Twyford Parish Council will minute that it is objecting to the proposal rather that it will publish the documents provided by you on the PC website and use local social media to direct residents to the site.

Probably not the input that you were hoping for, but we did take time to discuss.

Roger
